Service Production Part Approval Process (Service PPAP) is a supplement to Production Part Approval Process (PPAP) 4th edition. This document identifies PPAP requirements for all service parts. These requirements are intended to be clarifications to the PPAP process for service parts and not additional requirements.

Over 30 years ago, AIAG collaborated with the domestic automotive manufacturers to develop common quality methods and tools, which became known as the Quality Core Tools. The tools proved so useful that they were adopted by other manufacturing sectors, including aerospace, defense, medical, and pharmaceutical.
