Abstract. The American Joint Committee on Cancer and the International Union for Cancer Control update the tumor-node-metastasis (TNM) cancer staging system periodically. The most recent revision is the 7th edition, effective for cancers diagnosed on or after January 1, 2010. This editorial summarizes the background of the current revision and outlines the major issues revised.

Esophagus and Esophagogastric Junction. In previous editions of the American Joint Committee on Cancer (AJCC) Cancer Staging Manual, esophageal cancer staging was neither data driven nor harmonized with stomach cancer. The new staging system presented in the 7th edition of the AJCC Cancer Staging Manual, in contrast, is data driven and harmonized. 1 This commentary describes development of the new system and highlights the changes and additions.
