Introduction. Diplomacy is the art of making relations with other game entities in Civilization V. The world is huge and filled with other civilizations whose leaders are at least as cunning and determined as you are. Some are honest and others are liars; some are warlike and others prefer peace. But all want to win.

Civilization 5 offers you five different ways to win the game, and these have changed a bit as the game's expansions have been released. This Guide will show you how to win at the four primary victory types (Culture, Diplomacy, Domination, and Science), the fifth being survival until the year 2050, Time, which feels like a hollow victory, a failure to win at one of the actual goals.
