Since the Snowden revelations, the adoption in May 2016 of the General Data Protection Regulation and several ground-breaking judgments of the Court of Justice of the European Union, data protection and privacy are high on the agenda of policymakers, industries and the legal research community. Against this backdrop, *Data Protection and Privacy under Pressure* sheds light on key developments where individuals' rights to data protection and privacy are at stake. The book discusses the persistent transatlantic tensions around various EU-US data transfer mechanisms and EU jurisdiction claims over non-EU-based companies, both sparked by milestone court cases. Additionally, it scrutinises the expanding control or surveillance mechanisms and interconnection of databases in the areas of migration control, internal security and law enforcement, and oversight thereon. Finally,

after September 11, 2001. Pursuing those detours, Bush officials set up a law-free zone at Guant á namo, ordered massive immigration raids that separated families, and screened candidates for civil service jobs to ensure the hiring of “ real Americans. ” While government needs flexibility to address genuine risks to national security—which certainly exist in the post-9/11 world—the Bush Administration ’ s use of detours distracted the government from urgent priorities, tarnished America ’ s reputation, and threatened voting and civil rights. In this comprehensive analysis of Bush officials ’ efforts to stretch and strain the justice system, Peter Margulies canvasses the costs of the Administration ’ s many detours, from resisting accountability in the war on terrorism to thwarting economic and environmental regulation. Concise and full of compelling anecdotes, Law ’ s Detour

Handbook examines the GDPR 's scope of application, the organizational and material requirements for data protection, the rights of data subjects, the role of the Supervisory Authorities, enforcement and fines under the GDPR, and national particularities. In addition, it supplies a brief outlook on the legal consequences for seminal data processing areas, such as Cloud Computing, Big Data and the Internet of Things. Adopted in 2016, the General Data Protection Regulation will come into force in May 2018. It provides for numerous new and intensified data protection obligations, as well as a significant increase in fines (up to 20 million euros). As a result, not only companies located within the European Union will have to change their approach to data security; due to the GDPR 's broad, transnational scope of application, it will affect numerous companies worldwide.
