Vision and Mission Statement—www.lidl.co.uk

Lidl is part of the Schwarz Group, the fifth-largest retailer in the world with sales of €104.3 billion (2018). The first Lidl discount store was opened in 1973, copying the Aldi concept. Schwarz rigorously removed merchandise that did not sell from the shelves, and cut costs by keeping the size of the retail outlets as small as possible.

Lidl—Wikipedia

The Schwarz Group is a family-owned multinational retail group that operates grocery shops under the Lidl and Kaufland brands. It is the largest European retailer and the fourth-largest retailer in the world by revenue. The group operates supermarkets in most European countries and is currently expanding in the United States. A planned market entry to Australia was cancelled on short notice ...

Schwarz Gruppe—Wikipedia

Lidl started its foreign expansion in 1988 and is today present in 26 countries. The report shows that the company has continued its strong growth due to numerous new stores, but also that the costs of this expansion are a burden on profitability. This made the balance sheet look a little less impressive, confirming a trend that began last year.

Strong growth rate affects Lidl's profits | RetailDetail

Lidl GB is committed to British sourcing and, when seasonally possible, sources plants and flowers from long-term British suppliers. Due to the growth and nature of the horticultural industry, most of the plants and flowers grown within Europe come from the Netherlands and Italy, whilst a large portion of production takes place in countries where climate conditions are more favourable to grow ...

Schwarz Group released its financial year 2018/19 results, reporting a strong sales increase of 7.4% to €104.3bn. The growth was driven by Lidl and the group's international operations. Lidl's turnover increased by 8.8% to €81.2bn while Kaufland's sales grew by 1.6% to €22.6bn.

Schwarz Group 2018/19 results: +7.4% to €104bn

Discount supermarket Lidl has announced a record turnover of over £4billion in last financial year, up by 21 per cent in one year alone. As well as increasing its sales in the UK, it also boosted...

What people are saying about Discount Business Strategy: "Michael Andersen and Flemming Pouffelt provide a provocative discussion of the rapidly growing role of discounters across numerous industries: how they operate; how they create uniqueness; and how they can destroy value for incumbents. Understanding the specific moves and tools that the authors analyze will be valuable for attackers and incumbents alike." —Adrian J. Slywotzky, Director, Mercer Management Consulting USA "This book is very timely, dealing with today's most critical strategic issue: how to provide more value to the consumer through aggressive discounting. Those players in manufacturing and distribution who master this will be the winners; many established firms will fall by the wayside. A similar set of issues are facing many nations today - Europe vs. Asia!" —Peter Lorange, President, IMD, Switzerland "Andersen and Pouffelt have researched one of the most important themes in today's business world - how fundamentally new business models have wiped out establishments not with new products or technologies, but by creating new rules for conventional industries. Read this book and learn how to recognize the disruption of your industry before it is too late!" —Sigurd Liljenfeldt, Senior Partner, Monitor Group, France "This book asks if a firm can have its cake and eat it too - that is, maintain high quality at low prices. My favourite example and shopping place is big box Costco. Ikea is another. A must read for a broad audience concerned about corporate survival!" —Professor Larry E. Greiner, Marshall School of Business, University of Southern California, USA The aspiration to adopt the right strategy still prevails over the business world. But is there a single 'best' strategy for a company? Can an organization create sustainable competitive advantage from an 'off-the-peg' strategy? And are most companies likely to craft a strategy that genuinely creates uncontested market space and makes the competition irrelevant? The answer to all these questions is probably 'No'. And the rising tide of companies like Dell, CostCo, Skype and Linux means that asking them at all may soon be futile. While strategists have foundered in old paradigms, a new breed of competitors has emerged. Value destroyers. Old-style thinking understood value destruction when it was confined to an industry and driven by a new product or technology. But what are the implications when the destruction stems from a new way of thinking - from a strategy that simultaneously creates value? The implications are enormous. Every company in every industry is potentially at risk. This risk - or opportunity - is precisely the reason for this book and its focus on exploring why and how some companies have bridged the gap between differentiator and cost leader strategies to emerge as winners in hypercompetitive markets, and what this entails in terms of value destruction and creation. Discounting organizations are here to stay - are you?

This book provides a comprehensive and detailed introduction to the ISO 26000 standard for social responsibility (SR) in businesses and corporations. In addition to discussing the standard's focus on various stakeholders and seven core topics, the book underscores its key aspects and most debatable issues, with a focus on its connection to sustainable business practices. It presents numerous cases and practical examples of the ISO 26000's implementation and discusses the outcomes and lessons learned, in terms of the extent to which organizations can envision practicing CSR in ways that fit their activities, stakeholders and environment. Lately, the ISO 26000 has proved to offer an interesting and important approach to the standardization of (corporate) social responsibility. Approached and perceived as a voluntary standard that does not include any specific requirements, determining the best way to implement and work with it involved a considerable amount of experimentation. This book showcases the current state of application and discusses how different countries have developed their own specific versions of the standard, which organizations can use to certify their SR processes.

This book illustrates the various facets of internationalization in managerial practice, starting with a strategic outline of the many options firms have when formulating internationalization strategies. Designed as a textbook for Bachelor, Master and MBA classrooms, the core of the book consists of six case studies on firms from diverse industries, such as sporting goods, aviation, grocery discount, motorcycle, computer and IT, and fast-food. The cases present a variety of ways of entering and operating in foreign markets, such as export, franchising, joint ventures, strategic alliances, greenfield-investments, acquisitions and mergers. In addition to market entry strategies, the cases provide readers, educators and students with insights into target market strategies, timing strategies, allocation strategies and coordination strategies of well-known companies.

This book is devoted to the dynamic development of retailing. The focus is on various strategy concepts adopted by retailing companies and their implementation in practice. This is not a traditional textbook or collection of case studies; it aims to demonstrate the complex and manifold questions of retail management in the form of twenty lessons, where each lesson provides a thematic overview of key issues and illustrates them via a comprehensive case study. The examples are all internationally known retail companies, to facilitate an understanding of what is involved in strategic retail management and illustrate best practices. In the third edition, all chapters were revised and updated. Two new chapters were added to treat topics like corporate social responsibility as well as marketing communication. All case studies were replaced by new ones to reflect the most recent developments. Well-known retail companies from different countries, like Tesco, Zalando, Hugo Boss, Carrefour, Amazon, Otto Group, are now used to illustrate particular aspects of retail management.
