While estrogen is made by the body, certain foods contain high amounts of plant-based estrogens that have a similar effect compared to human estrogen. Known as phytoestrogens, these plant estrogens are found in vegetables, fruit, grains, nuts, seeds and legumes — such as black beans, soy and lentils.

Flax seeds. Flaxseed is one of the richest estrogenic foods you can find. It tops the list for the highest amount of phytoestrogen content of any of the recommended phytoestrogen-rich foods. Flax seeds are also a great source of dietary fiber, which helps to lower cholesterol and regulate the digestive tract.
